FizzBuzz Challenge

This is basically a simple program/function that prints numbers from 1 to 100 with the following conditions:

- If the number is multiples of 3, it should print **fizz**
- If the number is multiples of 5, it should print **buzz**

Some additional requirements to be followed:

1. Create an input form for user should enter a desired number to generate the FizzBuzz result
2. Make sure to validate the input value(s) - as only valid numbers are allowed
3. Render the result into following shapes and colors:
    - All the numbers in a circle with color of black (for border and text)
    - All the **fizz** in a circle/ellipse with color of blue (for borderline and text) and the text should be bold
    - All the **buzz** in a circle/ellipse with color of red (for borderline and text) and the text should be bold
    - All the **FizzBuzz** in circle/ellipse with background color of green and the text should be bold with white color
4. (Optional) ***jQuery*** is allowed for helping the DOM selection and manipulation

Example
